REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The closest prior art is Cohen, Schwartz, and U.S. Patent Nos. 4,439,179 to Lueders et al., 6,090,083 to Sell et al., and 6,179,806 to Sansoucy. Cohen and Schwartz teach multiple-lumen catheters with catheter valves with compression sleeves which clamp a single catheter tube and are biased closed. Cohen and Schwartz do not show a necked portion in the tube itself, nor biasing closed of a second lumen in addition to the first lumen of the tube. Lueders and Sansoucy show catheter tubing with clamp valves controlling two lumens, but do not show a necked portion. Sell teaches a procedure for necking a catheter tube. There is insufficient motivation to combine the features of the various references.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
